## CARING FOR KITTENS & CATS

Computer-based,  
Interactive Program for  
NEW AND  
EXPERIENCED CAT  
OWNERS

## FOSTERING KITTENS & CATS

Computer-based,  
Interactive Program for  
NEW AND  
EXPERIENCED  
FOSTER PARENTS

Many kittens and cats never get the chance to have a forever home. These interactive programs will help them find a home.

**Have you hesitated adopting because you don't know what's involved in raising a kitten or cat?**

**Have you thought "I can't foster because I couldn't give them up?"**

**CARING FOR KITTENS & CATS:** This program is for those adopting or buying a kitten or cat. Even if you own a cat, you might learn something.

This program goes deeper into what an OWNER of a pet needs to know. It also includes a topic on choosing a kitten or a cat.

**FOSTERING:** There aren't enough people willing to open their hearts and homes for a short time to help small kittens grow into loving pets.

Maybe you can't afford a cat of your own or don't want the 365 day responsibility of caring for an animal. BUT maybe you are willing to foster needy animals. You just didn't know how to go about it.

The program begins with a topic helping you decide if you *want* to foster and what is involved. It helps you decide *what age group* you will choose to foster.

The most difficult part, saying goodbye to a foster, is covered in a logical and thoughtful manner making it easier on the Foster Parent and the feline.

Some topics in both:

- Environment
- Supplies
  - Toys
- Handling a kitten or cat
- Kittens: 1-5 weeks
- Kittens: 6+ weeks
- Medical Issues
- Teens or Adult cats
- Special Needs Cats
  - QUIZ
- GAME SHOW

This information has been evaluated by Veterinary Professionals and Animal Shelters and called "brilliant!", "incredibly helpful" and "informative".

**If you can't adopt or foster, please make a donation to your local animal rescue or shelter.**

**Thank you.**
